

Rutgers In Your District

District 1

Senator Jeff Van Drew (D)

Assemblyman Nelson Albano (D)

Assemblyman Matthew Milam (D)

Rutgers People in District 1

1,794	Alumni
384	Undergraduate and Graduate Students
554	Continuing Ed Students Enrolled Locally
75	Faculty/Staff
2,807	Total

Rutgers Programs, Initiatives, and Facilities in District 1

- **MBA Team Consulting Program:** Marketing plan for historic Cold Spring Village developed by a team of MBA students (Cape May)
- **Rutgers' Cape Shore Laboratory:** A research facility studying the breeding processes and hybridization of aquaculture in southern New Jersey (Green Creek)
- **Continuing and Professional Education Courses:** Keeping the state's workforce current and offering citizens opportunity for professional advancement (Cape May, Cape May Point, Stone Harbor, Vineland City)
- **Keys to Achieving Resilient Transitions (KART):** Provides training, funding, and support to group homes, residential treatment facilities, and community-based service providers for children on the brink of aging out of foster care (Vineland)
- **Rutgers Cooperative Extension:** Science-based outreach and summer camp programs in such areas as food and nutrition, family and community health sciences, and 4-H (Cape May Court House, Millville)

Rutgers-K-12 Partnerships in District 1

- **Center for Effective School Practices:** Research-based pre-K through grade 12 classroom innovations (Millville, Vineland)
- **NJ Math Science Partnership:** Improving student achievement in mathematics and sciences (Millville, Vineland)
- **Rutgers Science Explorer Bus:** Interactive science lessons and demonstrations for middle school and junior high students in a 40-foot, state-of-the-art, custom-designed mobile laboratory staffed by Rutgers scientists (Cape May)
- **High School Financial Planning Program:** Workshops from Rutgers Cooperative Extension to help teachers implement a curriculum on personal finances (Cape May Court House, Leesburg, Millville, Ocean City, Vineland, Wildwood)

Did You Know?

Aquaculture, the farming of fish and seafood in captivity, dates back centuries, but states such as New Jersey are investing today to encourage high-tech, large-scale commercial versions. **Rutgers' Multispecies Aquaculture Demonstration Facility,** which is nearing completion in Cape May, will be used to perform **research and training related to the development of aquaculture as a large-scale New Jersey industry.** The complex, managed by Rutgers' Haskin Shellfish Research Laboratory, will consist of a series of indoor tanks and outdoor ponds for raising finfish and shellfish, an indoor hatchery facility, and a pumping station to supply saltwater needs. **Rutgers' Haskin Shellfish Research Laboratory** has a more than **100-year tradition** of disseminating research results and working cooperatively with state and federal agencies and the **fisheries and aquaculture communities in southern New Jersey.** The laboratory generates and disseminates research information directly applicable to all aspects of fisheries and aquaculture science, concentrating on species of commercial importance to New Jersey.
